BEING AWARE of the need for further measures by the Union for promoting the safe use of the Internet,

IN ORDER TO prevent and combat the sexual abuse of children and in particular the production, processing, distribution and possession of child pornography material through the Internet,

HAS DECIDED AS FOLLOWS:

Article 1

1. In order to intensify measures to prevent and combat the production, processing, distribution and possession of child pornography material and to promote the effective investigation and prosecution of offences in this area, Member States will take the necessary measures to encourage Internet users to inform law enforcement authorities, either directly or indirectly, on suspected distribution of child pornography material on the Internet, if they come across such material. Internet users shall be made aware of ways to make contact with law enforcement authorities or entities which have privileged links with law enforcement authorities, to enable such authorities to fulfil their task of preventing and combating child pornography on the Internet.

2. Where necessary, and taking account of the administrative structure of each Member State, measures for the promotion of effective investigation and prosecution of offences in this area could be the setting up of specialised units within law enforcement authorities with the necessary expertise and resources to be able to deal swiftly with information on suspected production, processing, distribution and possession of child pornography.

3. Member States shall ensure that the law enforcement authorities act swiftly when they have received information on suspected production, processing, distribution and possession of child pornography material.

Article 2

1. Member States shall ensure the widest possible cooperation to facilitate an effective investigation and prosecution of offences concerning child pornography on the Internet in accordance with existing arrangements and agreements.

2. To ensure a timely and effective response to these offences, Member States will communicate already established points of contact, which are set up on a 24-hour basis and consist of knowledgeable personnel, as well as the specialised units, which are mentioned in Article 1(2) and which can be used for exchange of information and for further contacts between Member States. Points of contact, which Member States have already set up for other duties can also be used for these purposes. Equally, existing channels for communication, such as Europol and Interpol shall be used.

3. Member States shall ensure that Europol, within the limits of its mandate, is informed of suspected cases of child pornography.

4. Member States, in appropriate cooperation with Europol, shall examine the possibility of organising regular meetings of competent authorities specialising in combating child pornography on the Internet with a view to promoting general information exchanges, analysis of the situation and the coordination of measures in criminal tactics.

5. Each Member State shall notify the General Secretariat of the Council of its organisational unit or units acting as points of contact under paragraph 2. The General Secretariat shall inform all other Member States of these points of contact.

Article 3

Member States shall engage in constructive dialogue with industry and examine appropriate measures, of a voluntary or a legally binding nature, to eliminate child pornography on the Internet. In particular, Member States shall exchange experiences on the effectiveness of any measures they have taken to eliminate child pornography on the Internet. In this context, they shall examine the following measures, which would place Internet providers under a duty:

(a) to advise the competent entities mentioned in Article 1(1) or the units mentioned in Article 1(2) of child pornography material of which they have been informed or of which they are aware and which is distributed through them;

(b) to withdraw from circulation child pornography material of which they have been informed or of which they are aware and which is distributed through them unless otherwise specified by the competent authorities;

(c) in accordance with the Council Resolution of 17 January 1995 on the lawful interception of telecommunications (1) to retain traffic-related data, where applicable and technically feasible — in particular for criminal prosecution purposes in cases of suspected sexual abuse of children, production, processing and distribution of child pornography — for such time as may be specified under the applicable national law, to allow the data to be made available for inspection by the criminal prosecution authorities in accordance with the applicable rules of procedure;

(d) to set up their own control systems for combating the production, processing, distribution and possession of child pornography material.

Article 4

Member States shall regularly verify whether technological developments require, in order to maintain the efficiency of the fight against child pornography on the Internet, changes to criminal procedural law, while respecting the fundamental principles thereof and, where necessary, shall make appropriate proposals to their competent authorities to that end.

Article 5

Member States shall cooperate, in contact with the industry, by sharing their experiences and encouraging, as far as possible, the production of filters and other technical means to prevent the distribution of child pornography material and to make possible the detection thereof.

Article 6

1. The Council shall examine the extent to which Member States have fulfilled their obligations pursuant to Joint Action 97/154/JHA and the extent to which the measures proposed in this Decision have proved effective.

2. The examination referred to in paragraph 1 may be carried out under Joint Action 97/827/JHA adopted by the Council on 5 December 1997 establishing a mechanism for evaluating the application and implementation at national level of international undertakings in the fight against organised crime (1), subject to the following:

   (a) evaluation teams shall consist of who experts;

   (b) on-the-spot evaluation shall be made so as to avoid cumbersome procedures.

3. The assessment specified in Title IV B of Joint Action 97/154/JHA shall not be carried out. It shall be replaced by the evaluation referred to in paragraph 2 of this Article.

4. On the basis of the information received in the course of the evaluation pursuant to paragraph 2, the Council shall examine any further measure it may with to take in order to make the combating of child pornography and sexual exploitation of children more effective.

Article 7

The measures contained in this Decision shall be implemented by the Member States at the latest on 31 December 2000.
